MannTek

Product Name Dust Cap - Al (Aluminium)

Part Number C100A1101

Description Protect the couplings against the ingress of dirt and water and increase product lifetime.

The cap features a safeguard against inadvertent release: before removing the cap, a spring-loaded locking pin is pulled.

MannTek

Product Name Dust Cap - SS (Stainless Steel)

Part Number C100A4401

Description Protect the couplings against the ingress of dirt and water and increase product lifetime.

The cap features a safeguard against inadvertent release: before removing the cap, a spring-loaded locking pin is pulled.

MannTek

Product Name Dust Cap - PE (Polyethylene-Composite)

Part Number C100A2201

Description Protect the couplings against the ingress of dirt and water and increase product lifetime.

The cap features a safeguard against inadvertent release: before removing the cap, a spring-loaded locking pin is pulled.
